SOCIAL ACTION

13 STEPS TO SUSTAINABILITY

United Methodist Women, 2016

Download at <http://www.unitedmethodistwomen.org/sustainability>

You are part of creating an exciting new chapter! United Methodist Women has a proud history. Since 1869, we've been putting faith, hope and love into action for the sake of women, children and youth. In the 21st century we know that our planet is threatened by an unsustainable, unjust and wasteful economic system in which we're all a part. Some people

and cultures have benefitted from the past 150 years of this system. Others have not. But one thing is for sure: we can't continue business as usual. **How we're living is unsustainable.** Sustainable practices are a key to today's women, children and youth's needs and a way to put faith, hope and love in action.

We believe one way to help us move in this direction is by systematically and full- heartedly paying attention to such "minor" details as the food for an event or our transportation arrangements or who is on the planning team. Through our choices as we plan and implement our United Methodist Women meetings, and model these very important practices, we begin to shift our and others' consciousness—across the church—to more concretely build a sustainable economy, develop right relationships and help repair and preserve the ecological wonder of this world.

In *Born on Third Base*, Collins calls for an end to class war, busts the myths that define our views of rich and poor, and offers bold new solutions for bridging the economic divide and re-engaging the wealthy in rebuilding communities for a resilient future.
